

## *E*scort Story

*For the past 13 years IOR Flight Attendant Masako (Bunny) Doi has been a volunteer child escort for Airline Ambassadors Children's Escort Program. She has consistently and selflessly given so much of her own time to help make life better for the fragile little children that she accompanies from the far corners of the globe to the U.S. for donated medical treatment. Masako is always the go to person each time the trip coordinators have an especially long and difficult trip to cover.*

*October 13, 2011*

*Within less than 4 weeks in August and September she accompanied Wushuang, age 14, and a burn patient, from PVG back to CVG for additional reconstructive surgery. This was the third time she has escorted Wushuang, our miracle girl.*

*Less than 2 weeks later she brought Asmaou, age 4 months, a baby from Burkina Faso, to DAY for surgery to correct a cleft face - not cleft lip, cleft face. This poor baby needed very specialized care on the flight and Masako didn't hesitate to bring her. Finally, less than 2 weeks after the CDG trip she was off again on a volunteer mission, this time to accompany 8 year old Muslam from EWR to DEL. Muslam is from Afghanistan and had been in EWR for several surgeries to correct bladder extrophy. She also accompanied him when he came from DEL to EWR almost a year ago. Masako is truly a treasure.*
